| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | ( Annual Planner 2023-24 |  |  |  |  |  |  |  |  |  |
| Grade II |  | Subject: Maths |  |  |  |  |  |  |  |  |
| Sr No | Lesson Name | learning objectives/ Subtopic | Methodology | pedagogical methods | learning outcome | Teaching Aid | Teaching Place | Reff.books with pg.no. | No.of lectures required | Class Activities /Diagrams / Map work |
| 1 | $\begin{aligned} & \text { Numbers up to } \\ & 200 \end{aligned}$ | To recognize and represent numbers. | Reading, writing, explanation, discussion. | Step-1 Teacher will conduct small activity and ask students to read numbers loudly and introduce the topic. | Students will be able to: | Place value kit, Number charts,flash cards, video and ppt | Classroom | $\begin{array}{\|l} \hline \text { pg.no } 7 \text { to } 25 \\ \text { textbook } \end{array}$ | 14 | Place value activity |
|  |  | To read and count and compare numbers. |  | Step-2 Teacher will revise 1-digit and 2-digit number explain the concept of place value with the help of place value kit. | 1) Understand and read numbers upto 200 |  |  |  |  |  |
|  |  | To build learner's number sense. |  | Step-3 Teacher will explain the concept of expanded form of numbers with the help of place value kit and ask students to expand the number | 2) Understand the concept of place value. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will write the numbers upto 200 and asks student to read the numbers loudly. | 3) Understand the difference between smallest and greatest number. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will explain the concept of smallest and greatest numbers. | 4) Understand the concept of ordinal numbers. |  |  |  |  |  |
|  |  |  |  | Step-6 Teacher will explain the concept of before, between and after numbers with the example. | 5) Understand the concept of even and odd numbers. |  |  |  |  |  |
|  |  |  |  | Step-7 Teacher will explain the concept of even and odd numbers. | 6) Arrange numbers in ascending and descending order. |  |  |  |  |  |
|  |  |  |  | Step-9 Teacher will explain the concept of ordinal numbers with the help of charts and conduct small activity. |  |  |  |  |  |  |
| 2 | Addition | To add numbers mentally. | Explanation, discussion, problem solving method,reading, writing. | Step-1 Teacher will conduct an small activity and introduce the topic. | Students will be able to: | Place value kit, beads mala, video and ppt | Classroom | pg.no 26 to <br> 42 textbook | 12 | Crafting addition machine |
|  |  | To recall and use addition facts. |  | Step-2 Teacher will explain the concept of addition and facts of addition and addition of 1 -digit numbers with the help of place value. | 1) Understand the addition of $1 \& 2$ digit numbers. |  |  |  |  |  |
|  |  | To understand place value of numbers. |  | Step-3 Teacher will explain the concept of addition of 2 digit numbers with and without regrouping with the help of examples. | 2) Solve addition with regrouping. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will explain the word problem sums on board. | 3) Solve word problems of addition. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will give some sums on board and asks students to solve. | 4) Define addition and solve addition problems. |  |  |  |  |  |
| 3 | Subtraction | To define subtraction | Explanation, discussion, reading, writing, problem solving method. | Step-1 Teacher will conduct an activity and introduce the topic. | Students will be able to: | Place value kit,beads,digit cards, video and ppt | Classroom | $\begin{aligned} & \text { pg.no } 43 \text { to } \\ & 61 \text { textbook } \end{aligned}$ | 12 | Subtraction activity |
|  |  | To solve sums with and without regrouping of numbers. |  | Step-2 Teacher will explain the concept of subtraction and the properties of subtraction. | 1) Understand the concept of subtraction. |  |  |  |  |  |
|  |  | To solve word problems based on subtraction |  | Step-3 Teacher will explain and solve subtraction sums on board. | 2) Solve subtraction sums with regrouping. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will explain and solve the sums of subtraction with and without regrouping. | 3) Solve subtraction word problems. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will explain the word problem sums on board. | 4) Solve 2 digit subtraction sums. |  |  |  |  |  |
| 4 | $\begin{aligned} & \text { Numbers up to } \\ & 1000 \end{aligned}$ | To read and wirte numbers upto 1000 | Explanation, discussion, questioning, interaction , reading, writing. | Step-1 Teacher will conduct a small game and introduce the topic. | Students will be able to: | Place value kit,number cards, ppt and video. | Classroom | $\begin{aligned} & \text { pg.no } 62 \text { to } \\ & 76 \text { textbook } \end{aligned}$ | 12 | My name kite activity. |
|  |  | To compare numbers upto 1000 based on their place value. |  | Step-2 Teacher will explain the concept of place value of bigger numbers with the help of place value kit. | 1) Read and write numbers upto 999 |  |  |  |  |  |
|  |  | To work with three digit numbers. |  | Step-3 Teacher will explain the expanded form of numbers with the help of place value kit. | 2) Understand the concept of comparison of numbers. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will explain the concept of before,between and after numbers with the help of examples. | 3) Arrange numbers in ascending and descending order. |  |  |  |  |  |

|  |  |  |  | Step-5 Teacher will explain the concept of comparison of 3-digit numbers. | 4) Understand the difference between smallest and greatest number. |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | Step-6 Teacher will explain the concept of increasing and decreasing order of 3-digit numbers | 5) Understand the concept of before, between and after numbers. |  |  |  |  |  |
|  |  |  |  | Step-7 Teacher will conduct an activity | 6) Understand the concept of cardinal and ordinal numbers. |  |  |  |  |  |
| 5 | Addition of bigger numbers | To add numbers mentally with increasingly large numbers. | Explanation,discussion ,questioning,problem solving method,writing. | Step-1 Teacher will conduct small activity and introduce the topic. | Students will be able to: | Ppt, video, place value kit. | Classroom | pg.no 77 to 86 textbook | 8 |  |
|  |  | To recall and use addition and facts. |  | Step-2 Teacher will explain the place value of bigger numbers with the help of examples. | 1) Understand the place value of bigger numbers. |  |  |  |  |  |
|  |  |  |  | Step-3 Teacher will explain and solve addition sums of 3 -digit numbers with and without regrouping. | 2) Solve addition and subtraction sums with bigger numbers. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will give some sums on board to the students to solve. | 3) Read and write bigger numbers. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will solve and explain subtraction of biggers. | 4) Solve word problem sums. |  |  |  |  |  |
|  |  |  |  |  | 5) Understand the concept of before, between and after numbers. |  |  |  |  |  |
| 6 | Subtraction of bigger numbers | To subtract numbers mentally with increasingly large numbers. | Explanation,discussion ,questioning, problem solving method,writing. | Step-1 Teacher will ask some questions and introduce the topic. | Students will be able to: | Ppt, video, place value kit. | Classroom | pg.no 87 to 96 textbook | 8 |  |
|  |  | To recall and use subtraction facts. |  | Step-2 Teacher will explain the place value of bigger numbers with the help of examples. | 1) Understand the concept of subtraction. |  |  |  |  |  |
|  |  |  |  | Step-3 Teacher will explain and solve subtraction sums of 3-digit numbers with and without regrouping. | 2) Solve subtraction sums with bigger numbers. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will give some sums on board to the students to solve. | 3) Read and write bigger numbers. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will solve and explain subtraction of 3-digit numbers. | 4) Solve word problem sums. |  |  |  |  |  |
| 7 | Multiplication | To recite multiplication tables. | Explanation,discussion ,questioning, interaction,rea ding, writing | Step-1 Teacher will ask some questions and introduce the topic. | Students will be able to: | ppt,textbook, <br> flowers, white board and video | Classroom | $\begin{aligned} & \text { pg.no } 97 \text { to } \\ & 112 \text { textbook } \end{aligned}$ | 14 |  |
|  |  | To multiply two digit numbers. |  | Step-2 Teacher will explain the concept of multiplication using repeated addition. | 1) Understand the concept of multiplication. |  |  |  |  | Making tables chart |
|  |  | To use repeated addition to multiply. |  | Step-3 Teacher will explain the concept of skip counting of numbers with examples. | 2) Recite multiplication tables. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will explain the properties of multiplication. | 3) Understand the properties of multiplication. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will ask students to recite multiplication tables loudly. | 4) Solve multiplication story sums. |  |  |  |  |  |
|  |  |  |  | Step-6 Teacher will explain story sums based on multiplication. | 5) Understand the concept of skip counting of numbers. |  |  |  |  |  |
|  | Exploring Multiplication further | To recall multiplication facts and tables.. | Explanation,discussion ,problem solving method, writing,interaction | Step-1 Teacher will recall the previous knowledge about multiplication and introduce the topic. | Students will be able to: | tables ppt, charts, video and white board. | Classroom | pg.no 113 to 128 textkbook | 16 | Building tables activity |
|  |  | To use multiplication tables for solving |  | Step-2 Teacher will ask students to recite multiplication tables loudly. | 1) Recite multiplication tables loudly. |  |  |  |  |  |
|  |  | To multiply numbers mentally. |  | Step-4 Teacher will explain and solve multiplication of two digit numbers with regrouping. | 2) Multiply two digit numbers by a onedigit number. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will give some sums on board and asks students to solve. | 3) Solve multiplication sums by repeated addition. |  |  |  |  |  |
|  |  |  |  | Step-6 Teacher will explain and solve word problem sums on board | 4) Solve word problem sums. |  |  |  |  |  |
|  | Shapes and Patterns | To identify specific shapes. | Explanation,discussion ,problem solving,writing,reading, interaction. | Step-1 Teacher will show different object and asks various questions and introduce the topic. | Students will be able to: | ppt, pictures, shapes, white board and video. | Classroom | pg.no 129 to 143 textbook | 8 | Making shapes using matchsticks or ice cream sticks |

|  |  | To recognize shapes in the environment. |  | Step-2 Teacher will explain the concept of plane and solid shapes. | 1) Understand the basic shapes. |  |  |  |  | Lines activity |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | To recognize a repeating pattern. |  | Step-3 Teacher will explain the concept of faces,edges and vertices. | 2) Understand the concept of repetition of patterns. |  |  |  |  |  |
|  |  | To create a shape pattern |  | Step-4 Teacher will explain the concept of patterns with the help of an example. | 3) Understand types of patterns. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will explain the concept of repetition of patterns. | 4) Understand the concept of types of lines. |  |  |  |  |  |
|  |  |  |  | Step-6 Teacher will show a video. | 5) Draw shapes. |  |  |  |  |  |
|  |  |  |  | Step-7 Teacher will explain the types of lines and conduct an activity. | 6) Understand the concept of solid shapes. |  |  |  |  |  |
| 10 | Measurement | To define and understand basic elements of measurement. | Explanation,discussion,writi ng,reading, interaction. | Step-1 Teacher will ask some questions and introduce the topic and explain the concept of measurement. | Students will be able to: | Measuring tape,video,veget ables,water,bottle,jugs, mugs, glass,ruler,charts,ppt | Classroom | pg.no 144 to 157 textbook | 10 | Measuring length of different things using non standard units activity. |
|  |  | To describe units of measurement. |  | Step-2 Teacher will explain the concept of non standard units measuring length by showing pictures. | 1) Understand the concept of measurement. |  |  |  |  | Guess the weight |
|  |  | To use measuring tools. |  | Step-3 Teacher will explain the concept of standard units of measuring length and will show video. | 2) Understand the standard and nonstandard units of measurement. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will explain the concept of heavy and light and xplain the concept of standard and non- standard units of measuring weight and show video. | 3) Understand the units of weight. |  |  |  |  |  |
|  |  |  |  | Step- 5 Teacher will explain the concept of measurement of capacity by showing one activity. | 4) Measure different objects,length,capacity and,wei ght. |  |  |  |  |  |
|  |  |  |  |  | 5) Understand the difference between weight, capacity and length. |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |
| 11 | Time | To read and tell time. | Explanation,discussion <br> ,writing,reading,interac tion. | Step-1 Teacher will narrate a story and introduce the topic. | Students will be able to: | Clock,calendar,video and ppt | Classroom | pg.no 158 to 170 textbook |  | Making clock activity |
|  |  | To compare and contrast the hour and minute hands. |  | Step-2 Teacher will explain the concept of time and about minute and hour hand. | 1) Read and write time. |  |  |  |  |  |
|  |  | To identify the hour and minute hands. |  | Step-3 Teacher will explain the concept of half past,quarter past and quarter to and ask students to draw a clock. | 2) Understand the concept of hour and minute hands. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will asks various questions about days,weeks and months. | 3) Understand the concept of days,weeks and months. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will give information about calendar and asks questions. | 4) Understand the concept of calendar. |  |  |  |  |  |
|  |  |  |  | Step-6 Teacher will conduct an activity. | 5) Draw a clock. |  |  |  |  |  |
| 12 | Money | To add or subtract small amounts of money. | Explanation,discussion ,writing,reading,interac tion, problem solving | Step-1 Teacher will asks various question and introduce the topic. | Students will be able to: | Play money kit,coins,notes, flash cards,charts,ppt and vidn | Classroom | $\begin{array}{\|l\|} \hline \text { pg.no } 171 \text { to } \\ 179 \text { textbook } \end{array}$ |  | Making paper wallet,notes and coins. |
|  |  | To understand the value of money. |  | Step-2 Teacher will show notes and coins and explain the value and importance of money to the childrens. | 1) Understand the value and importance of money in day to day life. |  |  |  |  |  |
|  |  | To understand the exchange of money. |  | Step-3 Teacher will explain the concept of exchange of money. | 2) Understand the exchange of notes and coins. |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will explain the concept of addition and subtraction of money by solving sums on board. | 3) Understand the value of each note and each coin. |  |  |  |  |  |
|  |  |  |  | Step-5 Teacher will give question to the childrens to solve on board. | 4) Add or subtract money. |  |  |  |  |  |
|  |  |  |  | Step-6 Teacher will explain the word problem sums on board. | 5) Solve word problems. |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |
| 13 | Data Handling | To collect,record and interpret data. | Explanation,discussion ,writing, reading, interac tion, problem solving. | Step-1 Teacher will ask some questions and introduce the topic. | Students will be able to: | Ppt,white board and video. | Classroom | $\begin{aligned} & \text { pg.no. } 180 \text { to } \\ & 184 \text { textbook } \end{aligned}$ |  | To collect data activity. |
|  |  | To represent data using symbols and |  | Step-2 Teacher will explain the concept of data handling. | 1) Understand the concept of pictograms. |  |  |  |  |  |
|  |  |  |  | Step-3 Teacher will expalin some examples to the childrens. | 2) Collect and record data. |  |  |  |  |  |

|  |  |  |  | Step-4 Teacher will explain the concept of pictograms and use of pictures and symbols for representing data. | 3) Understand the representation of data using symbols and pictures. |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | Step-5 Teacher will conduct an activity. | 4) Understand the use and importance of data handling |  |  |  |  |  |
| 14 | Division readiness | To define the terms: dividend,divisor,quoti ent and remainder. | Explanation,discussion ,problem solving, writing, reading. | Step-1 Teacher will ask various questions and introduce the topic. | Students will be able to: | white board, ppt and video. | Classroom | pg.no 121 to 128 workbook | 9 | Making division machine activity. |
|  |  | To recognize that division |  | Step-2 Teacher will explain the concept of dividing equally or | 1) Understand the concept of sharing |  |  |  |  |  |
|  |  |  |  |  | 2) Understand the meaning of division |  |  |  |  |  |
|  |  |  |  | Step-4 Teacher will explain the properties of division \& facts of division. | 3) Understand the properties of division. |  |  |  |  |  |
